Mathematical Foundations and Theory All students in the major must know linear algebra as taught in MATH 222 or 225 or MATH 226. Students who have learned linear algebra through other courses (such as MATH 230, 231) may substitute another course from this category. Students pursuing the B.S. degree must take at least two courses from this list ...

Statistics and Data Science < Yale University

This course examines the basic mathematics needed for physical chemistry, including (but not limited to) a brief review of linear algebra, Fourier transforms, delta functions, optimization, and the residue theorem. Depending on the year, selected other topics will also be included. One-term course offered either term.
