Here is the 8000 rpm rev limiter...Cost \$0, value ... I think tuning a MS would be easier. Which will be my new plan of action, unless some of the folks with some more ECU tuning experience would like ... to the 4afe ecu because we swapped in a smallport 4age and didn't think it was worth the hassle of swapping wiring harnesses and ecu's ...

### **Here is the 8000 rpm rev limiter...Cost \$0, value ...**

In my very own personal opinion, N/A-tuning the 4AFE block is stupid... A pure waste of money! However, turbocharging it is the way ahead. Get 160-170hp out of it without breaking anything. It goes from 13km/l to 15km/l, if you're not accelerating like a maniac all the time! Parts would cost something looking 500-700pounds.

...

In the past I've shimmed valve springs to increase tension, but with a bucket motor its very difficult to know if you're going to bind the valve spring and destroy it. You'll have to find out if emanage can let you go to a TPS tune. Map on quads is tedious to tune, and requires a vaccum canister and heaps of mucking around to make it run.
