Buried On The Fens A

Construction. A Neolithic trackway once ran across what archaeologists have termed the "Flag Fen Basin", from a dry-land area known as Fengate to a natural clay island called Northey. The basin is an embayment of low-lying land on the western margins of the Fens. The level of inundation by 1300 BC led the occupants to construct a timber causeway along the trackway route.

The Secret (a treasure hunt) / FrontPage

Coal is formed from the physical and chemical alteration of peat. Peat is composed of plant materials that accumulate in wetlands (bogs and fens), which break down through the process of peatification. If peats are buried, then the peats can be altered into different ranks of coal through the process of coalification. Learn more:

When Civil War once again flared up in 1648 Cromwell’s military successes meant that his political influence had greatly increased. December 1648 saw a split between those MPs who wished to continue to support the King and those such as Cromwell (known as the ‘rump parliament’) who felt that the only way to bring a halt to the civil wars was through Charles’ trial and execution.
