Dempsey, N., Burton, M. and Mathers, A. (2011) Place-keeping – responsive, long- term open space management. Town and Country Planning, 81 (10). 431 - 436 .

Place-keeping - responsive, long- term open space management

Place-keeping encompasses dimensions of long-term open space management – maintenance, partnerships, governance, funding, policy and evaluation – which have not been considered before as part of a holistic concept . These dimensions are inter-related and can be applied at a number of different scales such as site, neighbourhood, city and region.

Defining place-keeping: The long-term management of public ...

It is often perceived that place-keeping is the local authority's responsibility, which can lead to concerns about liabilities for the open space come with transfer of place-keeping responsibilities from local authorities to community groups; it may also engender a lack of motivation and unwillingness of communities to stay involved beyond the initial, place-making project stage (Burton & Mathers, 2014).

Place-keeping:Open space management in practice - CORE

This EU-funded project brought together European partners to focus on the long-term management of open spaces, or what we now call place-keeping. This involves exploring innovative approaches to designing and managing an open space while securing its long-term future by getting the right people, funding, policies and evaluative processes in place.

Dr Nicola Dempsey | Landscape | The University of Sheffield

In the second of a short series of three articles on place-keeping and open space management, Alice Mathers, Nicola Dempsey and Mel Burton look at the changing landscape of delivering place-keeping in the UK, and examine the effect of devolved power and economic constraint on the delivery of long-term open space management through partnerships
