This chapter considers the ways in which epistemological hegemony privileges certain approaches to the production of knowledge in health and offers a reflexive commentary on the need for cultural epidemiology to critically consider its own epistemologies prior to explaining those of "others."

Toward Cultural Epidemiology: Beyond Epistemological ...

Decolonization of knowledge (also epistemic or epistemological decolonization) is primarily an intellectual project that challenges the hegemonic Western knowledge system with its claim of universality. The project seeks to legitimize other knowledge systems and establish justice for hitherto disregarded epistemologies. These debates originated in the west with the counter culture, prominent ...

Decolonization of knowledge - Wikipedia

The recognition of cultural diversity as hermeneutics requires that the validation of scientific production be less focused on the production of hegemonic knowledge, created from hegemonic actors (overvaluation of science); to give space to the emergence of a production of knowledge that is close to the gnosiological architecture of the communities (appreciation of diversity).
