Reptiles are vertebrates that have dry, scaly skin and mostly lay shelled eggs. Learn about the definition, features, and types of reptiles and understand why they are important.

## **Reptiles: Features, Types & Importance - Study.com**

Reptiles, as most commonly defined, are the animals in the class Reptilia (/ r ɛ p ' t ɪ l i ə /), a paraphyletic grouping comprising all sauropsid amniotes except Aves (). Living reptiles comprise turtles, crocodylians, squamates (lizards and snakes) and rhynchocephalians (). In the traditional Linnaean classification system, birds are considered a separate class to reptiles.
