The exact years can fall between 1425 and 1495. When we look at paintings from this period, we notice how artists started to portray a keener eye to detail in their subject matter. Influenced by the forerunners of Renaissance paintings like Cimabue and Giotto, artists focused on the realistic depiction of human figures and anatomical correctness.

Academic instruction was centered on drawing (following the precedent of Italian drawing schools established in the sixteenth century). The Académie maintained a rigid curriculum to instruct artists, as recorded in contemporary accounts and depictions. An etching illustrating a 1763 description of the "school of art" shows how students first learned to draw by copying drawings and ...
