This year we will study the physical features of the earth, its atmosphere, and human activity as it affects and is effected by these two above, including the distribution of population and resources, land use, and industries. This will include current events research and sharing, deepening ideas around sustainability, artistic map making, and so much more fun!

### **7th Grade Geography - Mrs. Clyatt's Webpage**

Geography's subject matter is the spatial arrangement of the physical and human phenomena that make up the world's environments and gives character to places, large and small. Geography describes the changing patterns of places in words, maps, numbers and graphics, explains how these patterns come to be, and unravels their meaning.
